

Pozdravni govor

Poštovane kolegice i kolege,

Veliko nam je zadovoljstvo da Vas pozdravim na početku „**Devetog beogradskog samita interventnih kardiologa (BASICS+)**“, koji se održava od 22-25. aprila 2015. godine u Hotelu M „Best Western“ u Beogradu. Ovaj naš tradicionalni kongres nastavlja sa realizacijom ideja koje smo imali od početka i koje obuhvataju prenose uživo kompleksnih procedura na koronarnim arterijama, inovacije sa uvođenjem novih procedura na srčanim zaliscima (od prošle godine krenuli smo sa implantacijama aortne valvule perkutanim putem i zatvaranjem aurikule leve srčane pretkomore), praćenje i predstavljanje savremenih tendencija putem predavanja renomiranih interventnih kardiologa, a sve u cilju unapređenja kvaliteta rada interventne kardiologije u Srbiji. Uz rukovodstvo i inicijativu Kliničkog centra Srbije, ove godine imamo podršku svih centara interventne kardiologije u Srbiji, kao i mnogih centara iz regiona, tako da ovaj kongres evoluira u najznačajniji i najposećeniji kongres interventne kardiologije u jugoističnom delu Evrope. I ove godine očekujemo veliki broj inostranih gostiju koji su ujedno i

operateri i predavači, a pre svega prijatelji srpske kardiologije.

Velika zahvalnost, kao i svih ovih godina, ide prema industriji potrošnog i ugradnog materijala u interventnoj kardiologiji, farmaceutskoj industriji, Prvoj televiziji koja svih ovih godina realizuje prenose i tehničku podršku događaja, Telekomu Srbija kojim nam obezbeđuje linkove za video i audio prenos, i Hotelu M „Best Western“ koji je omogućio sve tehničke uslove za ostvarivanje kvalitetnog prenosa kao i održavanje kongresa.

S poštovanjem,
 Prof. dr Milan A. Nedeljković
 Predsednik Radne grupe za kateterizaciju srca i perkutane
 koronarne intervencije Udruženja kardiologa Srbije

Dear Colleagues,

It is my great pleasure to greet you at the beginning of the “**Ninth Belgrade Summit of Interventional Cardiologists (BASICS+)**” that is being held from April 22-25, 2015, at the Hotel M “Best Western” in Belgrade. This traditional interventional congress continues with the implementation of ideas that we had from the beginning and that includes live transmissions of complex coronary procedures, innovations with the introduction of new procedures for the structural heart disease (last year we performed first percutaneous aortic valve implantations and closure of the left atrial auricle), following of contemporary cardiology through lectures of world famous interventional cardiologists, with the aim of improving the quality of interventional cardiology in Serbia. With the leadership and initiative of the Clinical Center of Serbia, this year we have the support of all interventional cardiology centers in Serbia, as well as many centers in the region, so that this congress is evolving into the most important and most influential interventional cardiology meeting in the South-eastern Europe. This year we expect great number of foreign guests who are also operators and lecturers, and primarily friends of Serbian cardiology.

We greatly appreciate support of the industry in interventional cardiology, pharmaceutical companies, “Prva” television that organize recording of procedures, transmission, and technical support of the event, to “Telekom Srbija” that provides us high-quality audio-video links required for the transmission, and Hotel M “Best Western” which contribute us all the technical conditions needed for the transmissions as well as for conference realization.

Sincerely yours,
 Professor Milan A. Nedeljkovic, MD, PhD, FESC, FACC
 The president of the Working group for cardiac
 catheterization and percutaneous coronary intervention of
 the Cardiology Society of Serbia
